SHOT THROUGH DOOR

AND SCARES BURGLAR

Mrs. G. A. Martin Puts Marandner to Flight-Loot is Secured Prom

Homes in Alta Vista Section.

Awakened by a noise on the back porch of her home at 2911 Bliss street

at 3:30 Saturday morning, Mrs. G. A. Martin, got up, secured a pistol from

the front room and fired a shot through the glass door at opening on the rear porch. A man, frightened by

the shot, fled from the porch and cut through the back yard. The burglar carried a flash light. He had on an overcoat, a fedora hat and appeared to be an American.

Some time prior to that a burglar visited several other homes in the Alta Vista section. He entered the back porch of the home of Frederick Bauer, at 2865 East Rio Grande street

and robbed the ice box, leaving several lemons on the porch. The screen door in the porch of L. P. Boyce's home, at

2867 East Rio Grande street was cut but the burglar did not effete an en-

From the home of Frank Lucas, at 3015 Bliss street, he secured 25 worth of clothing and also secured some clothing from the home of C. A. Hammonds, at 2901 Bliss street.

The burglar worked quietly failing to awake any of the residents except Mrs. Martin.

(Continued From Page One.) mittee will be unable to agree on a bill built along the lines of the ad-

bill built along the lines of the ad-ministration measure. If the disagree-ments continue, it is possible that after the views of bankers and busi-ness men from all over the country have been considered, an attempt will be made to report the bill to the senate without recommendation. In this event a series of minority reports probably would accompany the measure, each condemning different provisions, or each suggesting different changes.

DURAN HAS TEN INCHES OF SNOW

Temperature Drops 33 Degrees and the Fall is the Heaviest Recorded Here During September.

Duran N. M., Sept. 27.—Duran had the heaviest snowfall ever recorded during September, when 10 inches fell here Friday. It started at 5 oclock in the morning and by 11 oclock there was six inches on the ground. It was still snowing at 6 oclock.

CLOUDCROFT GETS HEAVY SNOWSTORM

Clouderoft. N. M., Sept. 27.—Cloudcroft and the entire mountain section
got its first touch of real winter yesterday, 30 days earlier than usual.
This morning the ground here is covered with about two inches of snow.
There was a fall of rain and sleet all
day until about 3 oclock, then there
was a sudden drop in the temperature
and snow begun falling at 5.36 and
continued until well into she night.
The snow will prove very damaging
to the farmers throughout this section,
as they are all busy harvesting and
threshing their crops. The storm is
reported much heavier in James canyon
and Mayhill road than at Clouderoft.

RAIN INTERFERES WITH MIDLAND FAIR

Midland, Tex., Sept. 27.—Rain fell continuously all Thursday and Friday and shows no signs of letting up. There was a precipitation of one inch and a was a precipitation of one inch and a quarter. The lowest temperature this season was recorded Thursday night, when it dropped to 44 degrees.

Rain has been interfering with the Midiand county fair. Heavy roads and muddy conditions are keeping many people and exhibits away. However, some splendid forage crops are shown, as well as exceptionally good cotton. Poultry judging was completed today.

SHERIFFS ABANDON CHASE OF ROBBERS

Booty Secured by Three Bandits From Train in Alabama Is Estimated at \$100,000.

Tuskaloosa, Ala., Sept. 27.—Deputy sheriffs from Birmingham and Mont-gomery and armed farmers of Tuskasa county have abandoned the search for the three men who held up and robbed the Alabama Great Southern passenger train at Bibbville Siding, Ala., and the case is now entirely in the

hands of the railroad special officers. Five men have been arrested at Kau-tawa, Alu., below Tuskaloosa, and five others have been taken to the Tuska-loosa county jail by special agents. All of these men deny connection with the hold-up.

Various estimates place the amount of booty secured as high as \$100,000.

PATHFINDERS IN

(Continued From Page One.) crawled in to get warm or get away

from the cats.

A little later I woke the rest of them with a shout equal to Mr. Rand's, I had just been dreaming that a centipede was crawling up my back.

The Life Saving Breakfast.

Mr. Walker had stayed up with us until we dried out and were ready for bed and when he said "good night," informed us that "ham and" would be served next morning at 6:30. We were up in time and the "ham and" proved to be one of the most delicious breakfasts we had ever eaten—scrambled country ergs, produced in the back yard by Mrs. Walker's own hens; hot biscuit light as a feather, bacen fried crisp, gravy, coffee with real cream from the cow in the back yard, and home made preserves.

Breakdown on the Road.

Breakdown on the Road.

Feeling fit for any task, we tackied the mud and rode two meters when my car quit puiling. Investigation showed a broken gear whifting road, something that could only be repaired by a replacement. Mr. Rand hooked his Chalmers "40" onto my car and towed us to Gage, where there is a telegraph station and an operator who Brenkdown on the Rond. telegraph station and an operator who is as accommodating as Henry Kelly on the eye of an election n the eve of an election.

Hospitality at Gage.

We sent telegrams to El Paso for the broken part, to the people ahead who were expecting us, greased up the cars and then spent the rest of the day under the shade trees in the sta-

day under the shade trees in the station yard.

F. S. Case, a veteran in the service of the S. P., is the agent, operator and postmaster and Mrs. Case runs the store. Mrs. Case agreed to feed us while we were marooned and looked after us like a mother Again we had food as good as we could get anywhere and cooked perfectly—even to home made light bread. The vegetables came out of a garden in the depot yard, the milk from a cow that gives 20 quarts a day. That night we slept in the spare bedroom at agent Case's home.

Mr. Case is probably the only sta-ion agent in the world who owns he land the station is built upon. Mr. Case is probably the only station agent in the world who owns the land the station is built upon. When the S. P. was built through Gage, the United States gave it right of way over all public domain, so long as it uses it for railroad purposes, but the road received no title to the land: In other words if it should change its line, the land would revert to the government. When Mr. Case came here as agent, he decided to take up a homestead. He found the station about the center of a 150-acre tract, so he filled on the tract. Now he owns the land and if the railroad ever changes its route, all the property belongs to him. If the road always runs where it does now, while he owns the land, the railroad will have the free use of all it occupied when he came here.

Mr. Case has been in the service of the road for many years near El Paso. He was agent at Cambray and Lanark before he took the agency at Gage.
